

## Accelerate® Tri-Axis Tooling

The Accelerate® Collection is a range of products designed to help make stamping press operators speed up their production lines with higher efficiencies. The Accelerate product line was developed with our customers to address a number of issues experienced in the field. Working with our customers helped to bring innovative new products to the market, which in turn helps them produce more stamped parts per hour, while reducing moment forces and overall system wear and tear.

## Digital Press Shop and Robot-Assisted Assembly

- 3D model design and collision checking of die, press, automation, and tooling
- Digital simulation
- Precise build capability using robot technology
- Final assembly qualification using metrology

DESTACO can help you optimize your transfer press and reduce setup time, which will increase your production capacity.

## Areas where DESTACO can help increase your production capacity:

- Use our expertise to work smarter, not harder
- Minimal Setup Time
- Production Rate (SPM)
- Annual Production Volume (Number of Units)
